- Work at your own pace

Youtube 4 Teens gives students the training to start, grow and launch their own YouTube channel. This is an entrepreneurial course designed to challenge students to produce a channel in a SAFE way. The course is complete with video lessons, workshops and weekly assignments that help them launch a channel. The course is entirely online, video based and self paced and it comes with an impressive photo-filed workbook that guides them through the course. Best of all, it requires no special equipment beyond a smartphone which families most likely already own.
